## PROFESSIONAL SUMMARY

Senior Android Developer with 4+ years of experience (since June 2022) building native Android apps in Kotlin and Jetpack Compose, with 15+ apps published on Google Play across utilities, multimedia, personalization and AI-powered products. Works with MVVM, Clean Architecture, Hilt, Coroutines and Flow, and delivers features end to end: UI, REST API and Firebase integration, local storage with Room and DataStore, Google Play Billing and AdMob monetization, and Google Play releases. Portfolio includes apps with 5M+ and 1M+ Google Play downloads.

## TECHNICAL SKILLS

**Languages & UI:** Kotlin, Java, Jetpack Compose, XML layouts, Android SDK, Android Jetpack, Canvas API, Android Studio

**Architecture & Async:** MVVM, MVC, Clean Architecture, Hilt / Dagger, Coroutines, Flow, WorkManager

**Networking & Storage:** Retrofit, Ktor, OkHttp, REST APIs, Room, DataStore

**Firebase & Platform:** Firebase (Authentication, Firestore, Realtime Database, Cloud Messaging, Performance Monitoring), Google Maps SDK

**Media & Files:** ExoPlayer / media playback, PDF and file handling

**Monetization & Delivery:** Google Play Billing, AdMob / Google Ads SDK, Google Play Console, Git, localization, performance optimization

## PROFESSIONAL EXPERIENCE

### Senior Android Developer | Terafort
Oct 2025 – Present

*Full-time • On-site • Lahore*

- Build and maintain native Android apps in Kotlin and Jetpack Compose using MVVM, Hilt, Coroutines and Flow.
- Deliver features end to end: UI, REST API and Firebase integration, local persistence with Room and DataStore, and Google Play releases.
- Integrate Google Play Billing and AdMob for monetization; optimize performance and maintainability of utility, multimedia and AI-driven apps.

### Associate Android Developer | Games Tree
Aug 2024 – Oct 2025

*Full-time • On-site • Lahore*

- Developed features and fixed bugs for production Android apps in Kotlin and Java.
- Implemented media playback, file handling and API-driven screens.
- Worked on ad integrations, push notifications and offline functionality, and collaborated with designers on UX improvements.

### Android Developer | Plasma IT Solutions
Jun 2024 – Jul 2025

*Part-time • Remote • Rawalpindi*

- Built Kotlin Android features for client projects using the Android Framework and REST APIs.

### Android Developer | Grace Technologies
Apr 2023 – Aug 2024

*Full-time • On-site • Rawalpindi*

- Built and published native Android apps using Retrofit, Room, Firebase, Hilt and Jetpack components.
- Helped migrate the codebase from MVC to MVVM architecture.
- Integrated Google Ads SDK and Firebase Performance Monitoring.

### Junior Android Developer | PakTech
Jun 2022 – Mar 2023

*Full-time • Multan*

- Worked on Quran Furqan and Bliss: Yoga, Meditation, Music using the Android SDK, layouts and API integration.
- Developed, tested and debugged native Android apps and handled Google Play publishing.

## SELECTED PROJECTS (GOOGLE PLAY)

**Voice Changer: AI Sound Effect** **5M+ downloads**
Voice changer app: record or import audio and apply AI voice effects (robot, alien, animal and more), text-to-speech with effects, speech-to-text, prank sounds, and sharing of created clips. *Tech: Kotlin, MVVM, Coroutines, media playback, file handling, Firebase, AdMob*

**WallHub – HD Video Wallpapers 4K** **1M+ downloads**
Live wallpaper app with a categorized library of HD/4K video, parallax and 3D-style wallpapers, one-tap apply as live wallpaper, and touch-interactive animations. *Tech: Kotlin, Jetpack Compose, MVVM, Retrofit, ExoPlayer, Firebase, AdMob*

**All Video Downloader: AnyVideo** **100K+ downloads**
Video downloader and player: built-in browser, multi-format HD/4K downloads with real-time progress, parallel downloads with pause/resume, and an organized downloads library with built-in player. *Tech: Kotlin, MVVM, Coroutines, Flow, Room, ExoPlayer, AdMob*

**File Recovery – Photo Recovery** **100K+ downloads**
Data recovery utility: deep scan of device storage to restore deleted photos, videos and documents (PDF, Word), with file preview and batch recovery. *Tech: Kotlin, MVVM, Coroutines, file handling, AdMob*

**Rolling Icon – App Icon Change** **100K+ downloads**
Home screen personalization app: animated rolling and spinning app icons, icon library, custom icons from gallery or camera, app renaming, and icon shape, color and background customization. *Tech: Kotlin, Canvas API, MVVM, Google Play Billing, AdMob*

**4K Camera HD – AI Photo Editor** **100K+ downloads**
Camera and photo editor app: HD zoom capture, manual exposure, brightness and saturation controls, video and collage creation, and editing tools (crop, resize, color/tone adjustment). *Tech: Kotlin, MVVM, Coroutines, file handling, AdMob*

**Any Video Downloader & Player** **100K+ downloads**
Link-based video downloader and player: paste-link and auto link detection, social media reels/clips saving, background downloads, and in-app playback of short reels in HD/4K. *Tech: Kotlin, MVVM, Coroutines, Room, ExoPlayer, AdMob*

**AI Photo: Magic Editor Pro** **50K+ downloads**
AI photo editing app: face swap, background removal and replacement, AI art templates and filters, image-to-image transformations, enhancer, text, frames and effects. *Tech: Kotlin, MVVM, Retrofit, REST APIs, Coroutines, Google Play Billing, AdMob*

**HD Video Downloader & Player** **50K+ downloads**
Video downloader with a multi-tab built-in browser and history, automatic video detection, quality selection, pause/resume downloads, organized library and all-format player. *Tech: Kotlin, MVVM, Coroutines, Room, ExoPlayer, AdMob*

**Screen Mirror: TV Media Cast** **10K+ downloads**
Screen mirroring and casting app: mirror phone to smart TVs and PCs, one-tap casting, TV remote for playback and navigation, and a floating control tool. *Tech: Kotlin, MVVM, Coroutines, media playback, AdMob*

**AI Translator Keyboard & Chats** **500+ downloads**
Translation app with a custom keyboard that translates while typing in any app, plus an all-language text translator and image text translation. *Tech: Kotlin, Android SDK, REST APIs, Coroutines, DataStore, AdMob*

**Captain Tasleem – Driver App (Freelance)** **5K+ downloads**
Freelance project for Tasleem Trading LLC, Oman (Sep 2024 – Nov 2024): driver (captain) app for the Tasleem Taxi service, letting drivers work flexible hours; English and Arabic listing. *Tech: Kotlin, MVVM, Google Maps SDK, Firebase, REST APIs*

**Other projects:** CV Maker – Offline Resume Builder (Room, Canvas templates, PDF export); Qibla Compass & Islamic Utilities; All Document Reader & Viewer (PDF/Office viewing, WorkManager).

## EDUCATION

**Bachelor in Information Technology** | **Government College University Faisalabad (GCUF)** | Grade: A+ Sep 2018 – Jul 2022
